

Animals & Music

Increasing focus, fun, and productivity in music practice & performance this spring.

Your task is to complete all activities in one challenge to be entered to win! As you work through the activities, color in the icons to indicate completion & be prepared to demonstrate it to your teacher during lessons. Your teacher will enter your name into our Grand Prize drawing! The challenges to earn are:

Animal Nourishment

Animal Pace

Animal Character

Animal Habitat

You may earn them in any order. Students who earn all four will win a participation prize, and each challenge you complete will enter you to win one of four entries into the Grand Prize drawing. Limit one grand prize win per student.

Adults, teens, and others who prefer a more serious approach this spring are invited to complete the Majestic Musical Menagerie instead of the Animals & Music Challenge. Same participation rules apply, see final page for your challenge.

All challenges must be approved by one of our teachers prior to noon on the day of the drawing.

Spring Challenge Rules

Between mid-March and June, students at Maestro Music Academy will be challenged to explore the connection between music & animals. Every student who completes a challenge will be entered to win 1 of 4 GRAND PRIZES. All students who complete all four challenges by the deadline* will win a prize!

On the following dates, one of our team of teachers will draw a name. All names already submitted will remain in the pool for the next round. Visit the blog to download printable instructions, view submitted entries, and check for updates. Grand Prize choices will be announced March 31st.
Good luck!
